## Collaborating Across Borders: Advancing Engineering Education through Virtual Exchange and COIL (Collaborative Online International Learning)

An Erasmus+ Hybrid Conference hosted by the COIL-SERENADE Project

September 4, 2025 | 14:30–17:30 | Aula Nievo, University of Padua  
Hybrid Format: On-site & Online Participation

### About US.

**COIL-SERENADE** is an Erasmus+ KA2 project that enhances engineering education by fostering virtual collaboration and advancing digital skills through **Collaborative Online International Learning (COIL)**. The project supports interdisciplinary and cross-border educational approaches while addressing challenges in Ukrainian higher education caused by the ongoing war — contributing to a more **resilient and innovative education system**.
